## PRICING

\$ <b>.38</b> EACH	3 pallets or more
\$ <b>.43</b> EACH	1-2 pallet
\$ <b>.75</b> EACH	by the box

GripMaxx™ Geofoam Gripper Plates are used in the construction industry as part of the installation process of EPS geofoam blocks. To limit shifting between layers, either a construction adhesive or a mechanical device such as the gripper plate is used. The problem with construction adhesive for this application is that it is messy and can be problematic if a block needs to be repositioned after it is installed.
